

Use Dashboard Nodes For Creating UI

Date	13 November 2022
Team ID	PNT2022TMID02664
Project Name	Smart Waste Management for Metropolitan Cities

Steps:

Step 1: The Node-RED-Dashboard requires Node-RED to be installed.

Step 2: Restart your Node-RED instance and UI nodes will be available in the palette.

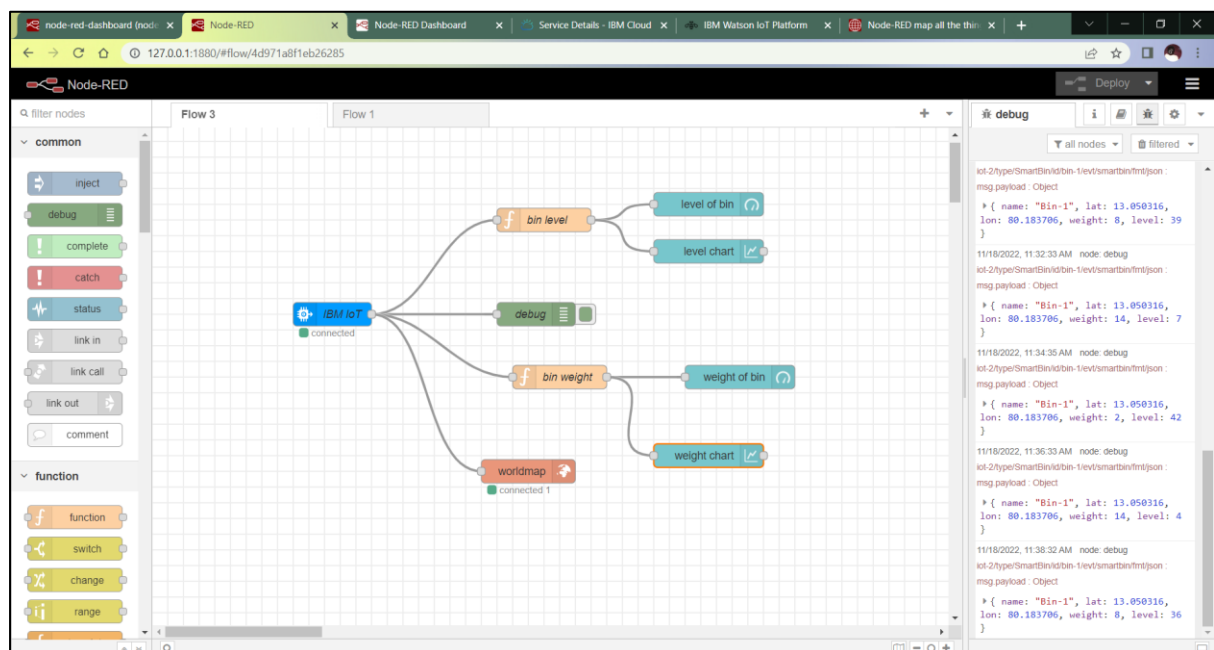

Step 3: The UI interface will be available at <http://localhost:1880/ui>.

Step 4: Then pick desired nodes and place in workspace.

Step 5: After creating the flow click deploy button on top right corner.

Step 6: Output is displayed in node red's dashboard.
